

RICKMAN METISSE MK5 CAFÉ RACER

Only available in the US and Australia

PUTTING THE RACER INTO CAFÉ RACER

The Café Racer

The Rickman Metisse Mk5 Café Racer combines the memories of the golden era of motorcycles with the engineering of the modern era. As with all Mk5 motorcycles, the Café Racer uses Rickman Metisse's own engine 'the Adelaide' to great effect. The unique engine is showcased in the Rickman Metisse trademark nickel plated frame, with all of these parts hand crafted and assembled in the Carswell workshops. The classic Café racer styled bodywork then gives you the option of having a top fairing or not.

As with all Rickman Metisse motorcycles it is not just about looking good. The underslung clip on handlebars, the tailored riding position, the adjustable suspension and powerful parallel twin engine all give you the ultimate riding experience for when you want to stop admiring the motorcycle... and ride it.
